This information is compiled from data submitted to EPA for registration.

- **Protection Times** - These protection times have been approved for product labels. These times are based on the technical information provided by the company on the effectiveness of the product against mosquitoes and/or ticks.
- An asterisk (*****) indicates that EPA has technical information on the effectiveness of the product against mosquitoes and/or ticks and the company chose not to have a specific time associated with their product.
- An "**X**" indicates that the repellent product has not been registered for protection from ticks.
